DOCKETING DEPT.

To whom it may concern,

I am writing to you concerning docket # 2006-107-WS. The United Utility Companies, Inc. request to raise the price for water and sewer again in our area. United Utilities Companies, Inc. does not furnish water to us. The Greenville water system furnishes us with water and sewer. For every gallon of water that comes in, we pay to have that same amount pumped out through the Greenville water system. We feel that we are being charged twice for the same service. That is not right. We live in a depressed area called The Village and The Shoals in Simpsonville, SC. Some of us are elderly and some of us are poor. At times we have to choose between food and medications. The price this company charges now is too much. To comply with United Utilities Company Inc, and raise the price will be unfair and surely put a hardship on us. We will be sending along a signed petition on this matter soon. If you can help us, please do so. Thanks!

Sincerely,

Elise Cooper *Elise Cooper*
